Emporium is an eclectic collection of weaves with great emphasis on small-scale geometrics, paired with luxurious texture and ornate design.

Bright and vibrant colours are prominent throughout the collection, which is made up of four distinct patterns: Jaipur, Pavo, Hawa, and Monsoon. The names, patterns, and colours are an ode to exotic hues and designs from India, and inspiration also comes from the peacock and its exuberant feathers - the national bird of India.

All fabrics are suitable for both upholstery and drapery, with an array of colour-ways offering plenty of placement opportunities. The mix of patterns and colours allows for some exciting combinations and contrasting pattern-play on furniture, cushions, and drapes.
